

# How to measure your head for Turban?

Order # \_\_\_\_\_

Name: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

- 1.** Use a soft measuring tape to measure the circumference of your head, about 1 cm above your eyebrows. Make sure to measure around the widest part of your head, all the way around back to your eyebrows again. Try to have the measure evenly laid around your head.
- 2.** If you do not have a soft measuring tape, use a string in the same way as indicated above to measure your head. Then lay the string straight and measure it with a ruler.
- 3.** If you cannot measure the head of the person who the helmet is for, measure the inside of a current helmet or a hat they wear frequently.

Value: \_\_\_\_\_

Size should be in inches
